

Foundations and Beyond - The Clinical Research Journey

DEVELOPING TOMORROW'S
RESEARCH PROFESSIONALS TODAY.

INTRODUCTION

Have you ever dreamed of starting a career in clinical research? Or maybe you are already working in the industry, but still struggling to understand the bigger picture? If this sounds familiar, then TASK Academy's exciting new offering Foundations and Beyond – The Clinical Research Journey – may be exactly what you have been looking for!

This innovative and immersive online course will enable you to kickstart and accelerate your career in clinical research as you navigate your way through the full lifecycle of a clinical trial by means of a mock Phase III trial.

RE-ENVISIONED CLINICAL RESEARCH TRAINING

WHO SHOULD ATTEND THIS COURSE?

As this course is multi-faceted, it can be completed by:

- Individuals, even with no background in clinical research, interested in getting their foot in the door.
- Those already employed in the industry (e.g., research nurses, investigators, pharmacists, clinical research associates, administrative staff), or
- Organisations looking to strengthen the knowledge base of their collective workforce.

AN IDEAL FIT FOR ALL ROLES WITHIN CLINICAL RESEARCH

About the course

Our comprehensive online course has the following features:

- ✓ 100% online on our e-platform – study at your own pace on any device from anywhere in the world
- ✓ Developed by industry for the industry
- ✓ From drug development to final study report
- ✓ Rich and immersive learning content
- ✓ Interactive course using real-life interviews, case studies, storytelling, quizzes and simulations to engage the individual and facilitate enhanced learning
- ✓ This course will take on average 20 – 30 hours to complete
- ✓ Two certificates for the price of one!
 - Downloadable customised certificate on completion of 9 modules of learning
 - Bonus feature: ICH GCP R2 certification on achievement of 80% in an interactive quiz where learner has multiple attempts to complete

Our easy-to-use platform allows you to complete a quick registration, enrol on our learning management system and receive your certificate/s immediately after you have completed the course. With easy-to-follow instructions, you have everything at your fingertips.

COST

The course is running at a special launch price of \$199 per learner. This is a once-of cost and there are no additional expenses.

Discounts may be given to large groups.

CONTACT

If you are interested in enrolling for this course, please contact us at academy@task.org.za

WHAT WILL YOU LEARN?

You will experience how the sponsor goes about developing a protocol, how sites are selected globally for participation, how approval by regulatory authorities is granted, and how the trial is implemented with the help of the necessary role-players.

Trial conduct will be explored in depth – you will learn about how study participants are recruited, consented, enrolled and randomised.

Furthermore, the roles and responsibilities of various team members will be explored – from a clinical research associate (CRA) to the trial pharmacist to the data manager. Important aspects such as management of safety, investigational product and quality are also dealt with extensively.

LEARN ABOUT THE FULL LIFECYCLE OF A TRIAL – FROM STUDY START-UP TO CLOSE-OUT

ACCREDITATION

The course has been independently quality assured by IAOCR (<https://www.iaocr.com>), is accredited by the Accreditation Council for Clinical Research & Education (ACCRE) and is recognized by the TransCelerate Biopharma INC. GCP mutual recognition program.

Developing tomorrow's research professionals today.
